I.3 TELEWORK (FEB 2015)

A. Definitions

"Telework" is an alternative work arrangement which allows a contractor employee to perform work at an alternate worksite (e.g. home, telework center, contractor's office). In accordance with 41 U.S.C. § 3306(f), employees of Federal Government contractors are permitted to telework in the performance of contracts entered into with executive agencies. The term "telecommuting" used in the Federal Acquisition Regulation (FAR) is synonymous with the term "telework" as used in this clause. A contractor employee can telework on a core or episodic basis. A core arrangement occurs on a routine and recurring basis, whereas an episodic arrangement occurs on an occasional and non-routine basis, such as during inclement weather.

"Telework-ready contractor employee" is a contractor employee who has been approved to telework, has an established alternate worksite, is prepared to telework by having enough work to cover the scheduled telework period, and has the appropriate secure technology equipment to meet the needs of the telework arrangement and a high-speed Internet connection.

B. Requirements

The Contractor shall provide adequate oversight of work products when telework is authorized to ensure continuity of contract performance and quality control.

Equipment provided by U.S. Customs and Border Protection (CBP) for telework purposes will be treated as Government Furnished Equipment (GFE) and guidelines in CBP HB 1400-05D, CBP Information Systems Security Policies and Procedures Handbook shall be followed. All CBP training required for telework-ready contractor employees, such as the annual CBP IT Security Awareness and Rules of Behavior training, shall be completed prior to commencement of an individual's telework schedule. The Contracting Officer's Representative (COR) will notify the Contractor's program manager (PM) of the required training courses. Once the training is completed, contractor employees shall submit their certificates of completion to the COR. Contractor employees shall comply with the security requirements stated in HSAR 3004.470 and HSAM 3004.470, and work according to the guidance set forth in DHS 4300A, Sensitive Systems Handbook, Rules of Behavior (Attachment G).

A contractor employee's telework schedule shall be approved by the Contractor's PM and coordinated with the COR. Once approved, requests to change a scheduled telework day shall be submitted in advance when possible to the Contractor's PM, who will coordinate with the COR. The Contractor's PM continues to be responsible for contractor employees' time and attendance and notifying the COR of any changes.

If a Federal Government closing affects the Government facility, contractor employees who are telework-ready shall begin to telework at their normal start time and are expected to work the entire day. If OPM announces the option for unscheduled telework, a contractor employee may request to telework by contacting the Contractor's PM, who will coordinate with the COR.

If a contractor employee has performance issues, does not follow the security procedures, or does not complete required training while in a telework status, the COR will contact the Contractor's PM and the contractor employee's telework privileges may be revoked.

C. Information Technology (IT) and Security

Contractor employees are required to use only GFE provided by CBP when teleworking. Should the GFE fail or require repair or replacing, the contractor employee shall be required to return to the traditional worksite to perform their duties. CBP shall provide maintenance and technical support for IT GFE used by teleworkers. CBP's inability to provide IT GFE shall not constitute an excusable delay. The Contractor or contractor employee is responsible for providing high-speed internet connectivity for teleworking and will bear the cost of the internet connection. The contractor employee shall be accessible at all times, via telephone, e-mail, or video conferencing during his/her working hours.

Contractor employees' use of GFE and Government information shall be for contractual performance only and shall be protected from unauthorized access, disclosure, sharing, transmission, or loss. The contractor employee shall keep Government property and information safe, secure, and separated from his/her personal property and information. Contractor employees who telework shall be the sole operators of the GFE they use and shall abide by CBP HB 5200-13C, Personal Property and Asset Management Handbook. Contractor employees who telework shall not work on, have access to, or keep in their possession classified information at an alternate worksite. Contractor employees shall comply with the guidance in the DHS Handbook for Safeguarding Sensitive Personally Identifiable Information.

Contractor employees shall return all GFE provided by CBP to the COR upon separation from the contract.

D. Subcontracts

The Contractor shall include the substance of this clause in all subcontracts where telework is permitted. The Contractor shall be responsible for monitoring the subcontractor's adherence to this clause.

(End of clause)
